Subject : Member Tests for BISTECH System 3.01 Version

To Whom It May Concern,

Ref: Announcement dated 13/10/2023 and numbered 2023/20629

Previously related announcement has been shared that BISTECH System improvements and developments continue with the requirements of product and service diversity and the new version called 3.01, is planned to go live (Production) as of **December 11, 2023**.

BISTECH 3.01 version is planned to include the general improvements to be made in the system, along with the detailed enhancements listed below:

- 'ShortSellValidation, (tag = 21070)' field will be added to FIX Reference Data 'Security Definition (MsgType = d)' and 'Security Definition Update Report (MsgType = BP)' messages. The “Genium INET FIX Reference Data Protocol Specification” document will be updated at <https://borsaistanbul.com/en/sayfa/2530/technical-documents> .
- The TIP Specification document will be updated to include the following changes.
 - Data type of CurrentValue(Vc), HighValue(Vh), LowValue(Vl), OpenValue(OVa), DiffDayNom(Dn) fields in the IndexUpdate(i) message will be updated to Double(18,6).
 - Data type of ClosingValue(VLc), HighValue(Vh), LowValue(Vl), OpenValue(OVa), DiffDayNom(Dn), OldIndexValue(ODXv) fields in the IndexSummary(Is) message will be updated to Double(18,6).
 - Data type of the BaseValue(IBv) field in the BasicDataIndex(BDIn) message will be updated to Double(18,6).
 - ShortSellValidation(Sv) field has been added to the BasicDataTradable(BDt) message.

The changes will be included in the Revision History of the "BISTECH Consolidated Feed TIP Specification" document and the updated document can be accessed at <https://borsaistanbul.com/en/sayfa/2530/technical-documents> .

HİZMETE ÖZEL

- A link which is showing the Precious Metals member codes will be added to the main menus of Precious Metal Transaction Terminal (KIT).

BISTECH Member Free Test Environment (pre_prod test environment) will be updated on October 30, 2023 with the release of BISTECH 3.01 version. The new version is expected to be tested and checked by members prior to deployment. Test environments information can be accessed from <https://connectint3.borsaistanbul.com> Verda Menu -> Application Software.
